### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: independent claims 1, 25 and the respective dependent claims are allowed because the instant invention requires a novel forming fabric and the method for its production. Specifically, the fabric requires binder weft yarns in groups of at least two and that the machine side warps are interlaced with machine side wefts and binder wefts so that "fewer knuckles" are formed over paper side warps than over the paper side wefts. Applicant has defined "fewer knuckles" as follows: "fewer knuckles indicates that the paper side of the forming fabric comprises at least one binder group whose binder weft yarns make less interlacing cycles over paper side warp yarns than interlacing cycles of paper side weft yarns over paper side warp yarns." This construction is not taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
